

Northern Districts Bridge Club Order of Merit

Qualification Criteria

To qualify for listing in the NDBC Order of Merit a player must be a Full Member of the NDBC and have played in a minimum of 30 sessions in the calendar year 1 January to 31 December

Assessment Criteria

The NDBC Order of Merit is created by calculating the average percentage score for all sessions played by each member meeting the qualification criteria and listing those players in their ranked order highest to lowest.

Club Champion

The NDBC Club Champion is the player achieving the highest average percentage score for the year. In the event that two or more players achieve the same score then the championship will be jointly shared.

Player Performance Statistics

Since we are able to calculate the average percentage score for all players we provide the same information for Associate Members and those Full Members who do not meet the qualification criteria. In addition we also show the best percentage score achieved by each individual player during the year.
